

5th STREET RECONSTRUCTION

FROM COUNTY ROAD M TO COUNTY LINE AVENUE

RESIDENT NOTICE:

- The contractor anticipates beginning construction on July 5th.
- They will start with tree removal and brush removal.
- Excavation is anticipated the following week (week of July 11th).
- Temporary mailboxes will be set up near the corner of CTH M and 5th Street. They will be labeled, and the Post Office will deliver mail to this temporary location until your mailbox is reinstalled at the end of the project.
- Signs will be installed saying “Road Closed – Local Traffic Only” to limit the traffic; however, you will be able to access your residence. There may be times when the road is not passable during construction, and you may only be able to access from one direction rather than from both directions.
- The school bus company has been notified of the construction. Once we get closer to the start of school, we can work with the bus company to safely accommodate the bus route and children.
- At the same time as our street reconstruction project, Xcel Energy will be replacing the power poles along 5th Street. We will be in close contact with them to coordinate the two projects.
- There will be several construction workers in the area. Friendly reminder that per Village Ordinance 11-2-1, discharging firearms within the Village limits is prohibited.

If you have any questions or concerns, please contact:

Angela Popenhagen, Village Engineer, 651-252-7094
